

WHO Part 3

Partners Aligned in Implementation

Special Roles of Key Partners

Throughout the planning year, the OneComm team was made-up of representatives of partner organizations whose contributions were invaluable to establishing the “One Community” ethos.

They, along with unaffiliated members of the OneComm Plan Development Committee, set in motion a rhythm of teamwork that inspired renewed faith in the ability of community leaders to work toward in transformative change.

Going forward, the OneComm Plan will work toward formal and full integration and alignment with the following organizational partners, almost all of whom contributed financial and staff resources during the planning year.

OneComm will engage EMPACT Solutions, a St. Petersburg-based consulting firm, to develop a communications, planning and accountability infrastructure for OneComm implementation.
